Donna Jackson
MAX Credit Union

MEMBER-AT-LARGE

Diane Sparks Stokes
State Farm

Join us for our FREE October meeting!*

Rainwater Harvesting for Commercial and Residential Applications

Rainwater harvesting is a technology used to collect, convey and store rain from relatively clean surfaces (such as a roof) for later use. This is water that would otherwise have gone down the drainage system or into the ground. Come hear David Crawford from Rainwater Management Solutions as he outlines rainwater harvesting tools and techniques for homes and businesses.

Speaker: David Crawford, President
Rainwater Management Solutions

Tuesday, October 25th — 11:30 a.m. to 1:00 p.m.

**MAX Credit Union Auditorium
400 Eastdale Circle — Montgomery**

FREE for USGBC Members

***Non-Members — \$15**

Meeting includes lunch and presentation. A certificate of attendance for PDH/CEU credit will be issued at the close of the meeting.

**RSVP by 9 a.m. on Monday, October 24th
on our website:
